

Using the Mewa API to consume Real Data

This document illustrates the different ways of retrieving real data about commercial registers in the kingdom, which displays the available business types in kingdom with the total number of commercial registers for each.

For further information, contact E-Services@mewa.gov.sa

To consume the real data follow the below steps using one of the following fields:

1. Camels count in the Kingdom

https://www.mewa.gov.sa/_layouts/MEWAHandler/MEWAHandler.ashx?type=getCamelsCount

Result Example:

```
{
  "EmptyData": false,
  "Count": "1580951",
  "IsCacheResult": true
}
```

2. Bees cells count in the Kingdom

https://www.mewa.gov.sa/_layouts/MEWAHandler/MEWAHandler.ashx?type=getBeesCellsCount

Result Example:

```
{
  "EmptyData": false,
  "Count": "671769",
  "IsCacheResult": true
}
```

3. Number of legal fishermen in Kingdome

https://www.mewa.gov.sa/_layouts/MEWAHandler/MEWAHandler.ashx?type=getFishingLicensesCount

Result Example:

```
{
  "EmptyData": false,
  "Count": 9614,
  "IsCacheResult": true
}
```

4. Wells count

https://mewa.gov.sa/_layouts/mewahandler/MEWAHandler.ashx?type=getwellscount

Result Example:

```
{  
  "EmptyData": false,  
  "Count": 102652,  
  "IsCacheResult": true  
}
```

5. Farms count

https://mewa.gov.sa/_layouts/mewahandler/MEWAHandler.ashx?type=getfarmscount

Result Example:

```
{  
  "EmptyData": false,  
  "Count": 108158,  
  "IsCacheResult": true  
}
```
